

# PVC Strip Doors – Details and Prices

## DESCRIPTION :

If you have areas where children are constantly going in and outside, then these simple, robust doors are ideal for preventing heat loss and what's more children love them!

Three types of strip door are available – clear, blackout and rainbow coloured. All are made from soft PVC and are available in three door widths. The rainbow door is particularly appealing in schools as the overlaying coloured strips demonstrate colour mixing in action as well as adding a splash of colour to any classroom or corridor. The blackout door is ideal for sensory rooms, allowing easy access but keeping out unwanted light.

## FITTING :

These doors are sold as a self assembly product as they are very easy to self fit. Clear instructions accompany each of them and it is easy to trim down the sizes shown below, to fit all sizes of doorway. All are also available made to measure, if needed.
